S. Treacy	Email, Teams	Weekly	Weekly
T. McCabe	Teams	A mix depending on the group	Varies depending on the task

Notes on specific subjects

DCG

Some students have been in contact in relation to the availability of paper. I have emailed students about alternative methods of submitting work if this is an issue. Students can submit scaled technical sketches on available paper instead of full-scale technical drawings. However, if your son is in an exam year it may be worth exploring options of sourcing paper for the purpose of practicing exam questions. An information letter on options for sourcing paper can be accessed at the link below.

ART

Art: due to the COVID 19 pandemic and school closures, the DES has forbidden the removal of 3rd and 6th year workbooks from the school building. It is essential that you continue to complete drawings that can be transferred and or traced into workbooks on our return. 2nd Years work on CBA has also been out on hold.
